

## Our Family Online Safety Agreement

This online safety agreement defines internet use rules for our family. It will help all of us understand what is expected and what we can or cannot do online.

- **I will not share my address or phone number online**, or give out any information that identifies me. If anyone asks for this information, I will tell my parents, caregivers or another adult I trust.
- **I will not tell anyone, other than my parents or caregivers my passwords.** Not even by best friend or boyfriend.
- **I will treat others with respect online, as I would in person.** I won't pick fights or use mean words.
- **I understand that nothing I do online is private;** I will not say or do anything that I would not want others to see or know about.
- **I will never post my picture or a video of myself online without the permission of my parents or caregivers.**
- **I will not open an email or click on a link from someone that I do not know.**
- **I will never lie about my age online.**
- **I will tell my parents, caregivers or another adult I trust** if anyone online makes me feel uncomfortable or angry.
- **I will share my favourite sites with my parents or caregivers,** so they can better understand what I like to do online.
